

## MISSION

To help companies and organizations improve their Management Systems by providing certification, training and audit services with consistency, impartiality, and integrity.

## VISION

To provide globally recognised certification services for both local and international companies through competent and trained staff.

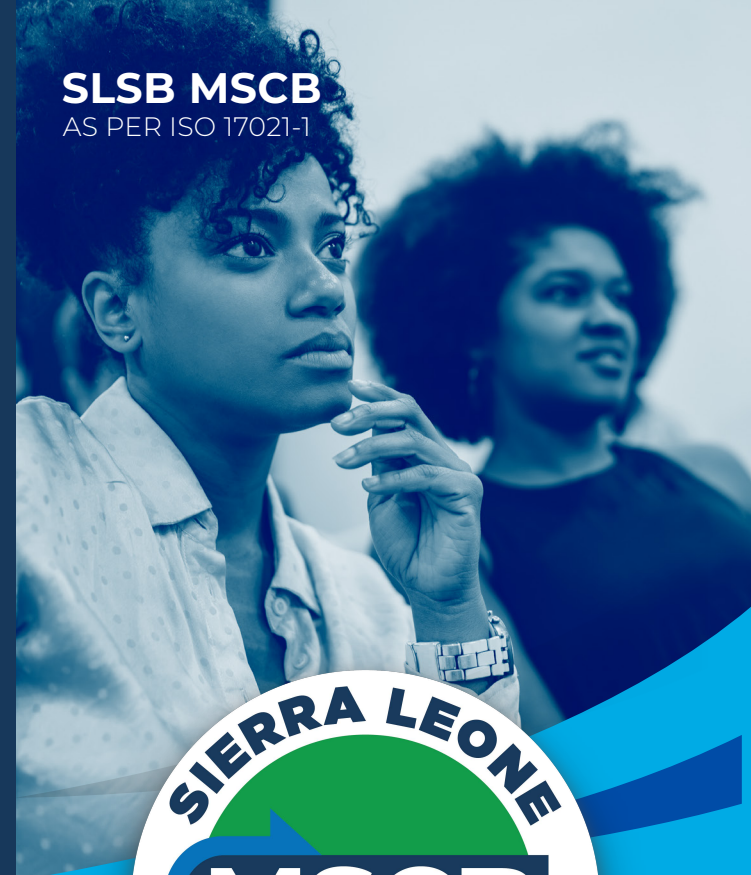

## WHO WE ARE

The establishment of the first-ever internationally accredited Management Systems Certification Body (MSCB) at the Sierra Leone Standards Bureau. Our objective is to develop an effective and efficient National Quality Infrastructure (NQI) in Sierra Leone. The certification services provided by SLSB MSCB will further pave the way for the sustainable promotion of enterprises that inspire customer confidence.

# CERTIFICATION PROCESS

- Complete a simple application form and we customise a quote detailing the cost, planning and time required.
- Our pre-audit team determines if your organization already fulfills ISO Management System requirements and identifies areas for improvement.
- MSCB auditors visit your site to verify the profile submitted during your application and determine your readiness for Stage- 2 (Onsite audit).
- Propose corrective actions, if any. Receive your audit report and certificate after approval from the committee with annual surveillance audits conducted thereafter.
